Self Assessment Rating

- **0% - 9%** Anecdotal only; No system evident
- **10% - 40%** Beginning of a **systemic approach** to addressing the primary purpose of the indicator; Early stages of a transition from reacting to problems to preventing problems; Very early stages of developing trend data; Data not reported for many of the key processes
- **41% - 60%** Beginnings of a CQI process in place; Beginning to be deployed in pockets of the organization
- **61% - 90%** Fact-based improvement process is in place; Approaches beginning to **be saturated** in all relevant areas and activities; Some trends and current performance are evaluated against relevant comparison benchmark
- **91% - 100%** Fact-based improvement process is a key management tool; Clear evidence of improvements as a result of improvement cycles and analysis; Fully saturated; Excellent improvement trends; **Sustained excellent performance**

The RATING Has Three Evaluation Dimensions

- Approach - Methods and appropriateness of methods to the requirement
- Deployment – Extent to which the approach is being applied
- Results – Outcomes and results of process improvements

Elements to Consider

Is the Indicator SYSTEMIC:

- Formal, organizational mechanisms
- Accountability constantly applied
- Customer data that is collected systemically and used to make continuous improvements to core services

Is the Indicator SOUND:
